Straw Poll Results

Follow-up to the April 2026 Shareholder Survey
Board nominee preferences

May 2026

Purpose & Methodology

Purpose

To gauge shareholder support for an independent board slate composed of new nominees and select existing members, and to enroll shareholders in the proxy process ahead of the annual meeting.

Questions Asked

1. Select your top 5 or 6 new nominees
2. Select existing board members to retain:
 - Chose 5 new → selected 4 existing
 - Chose 6 new → selected 3 existing
3. Indicate proxy signing preference (electronic or physical)

Deduplication Rules

- 45 responses received. Responses were deduplicated so that each apartment cast only one vote:
- Where the same apartment submitted multiple responses, only the most recent entry was counted
 - 2 responses were excluded: one with no valid apartment number and one test entry
 - Result: 39 valid apartment votes

How Results Are Used

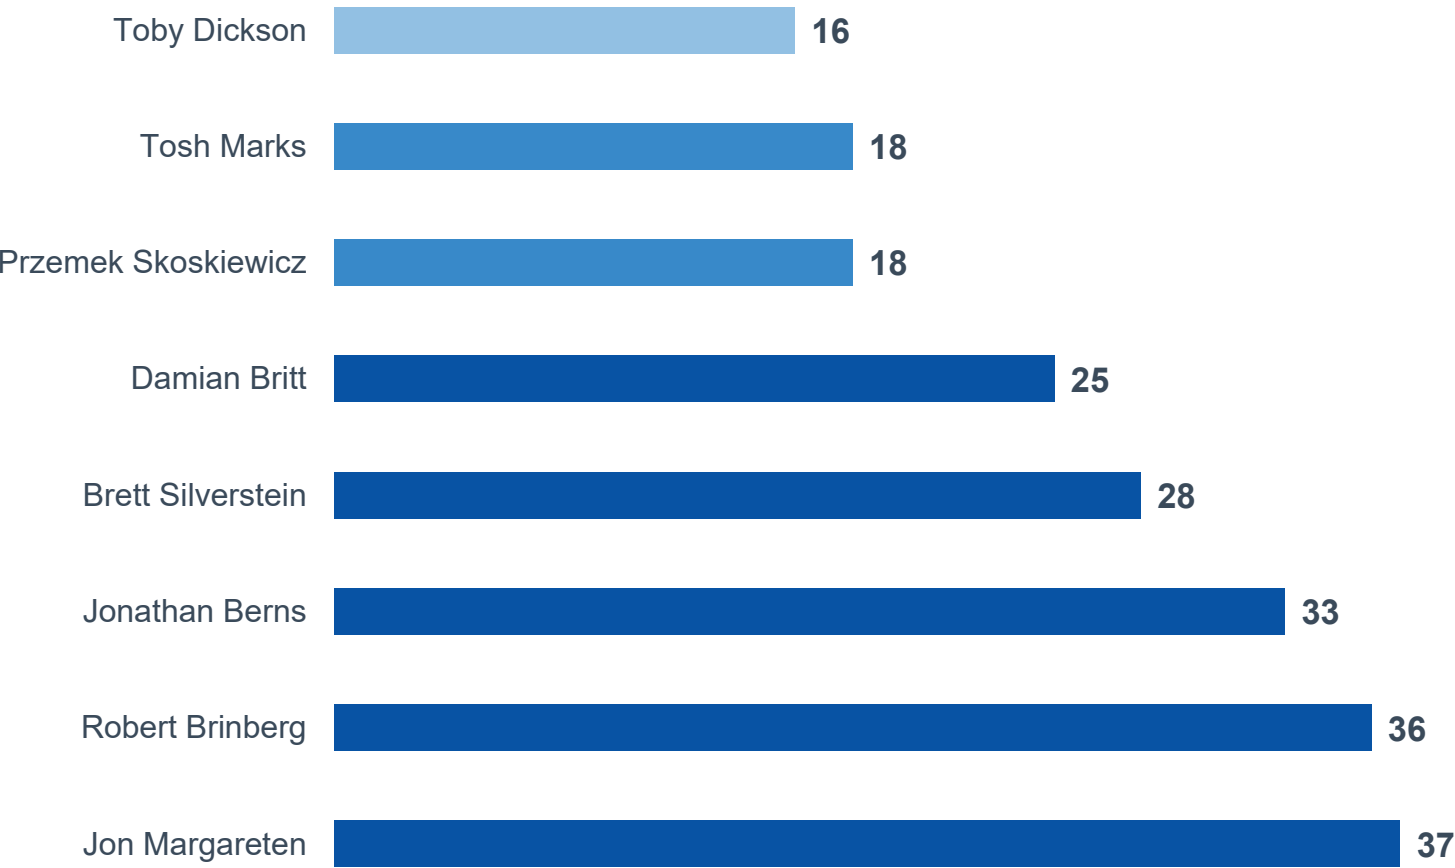

New nominee results determine the recommended independent slate.

Results identify which current board members have shareholder support for retention.

Proxy preferences determine how to prepare and distribute proxy materials ahead of the annual meeting.

New Candidate Preferences

"Of the new nominees, please select your top five or six choices." (39 valid apartment votes)

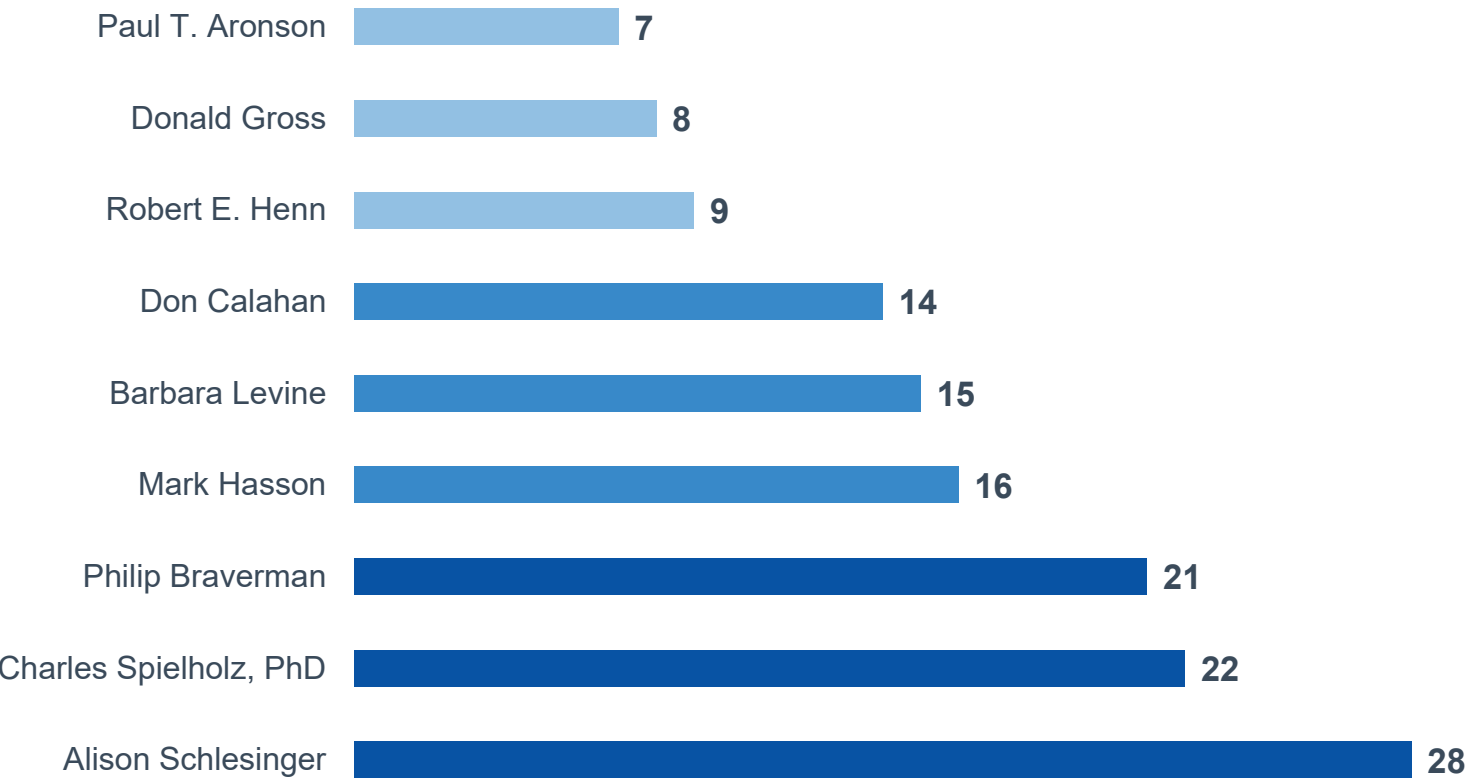

The top five form a clear cluster. A 7-vote gap separates Britt (25) from the next tier — Skoskiewicz and Marks are tied at 18.

Clear top 5:

Jon Margareten	37 votes
Robert Brinberg	36 votes
Jonathan Berns	33 votes
Brett Silverstein	28 votes
Damian Britt	25 votes

Existing Board Member Preferences

Respondents choosing 5 new candidates selected 4 existing; those choosing 6 new selected 3 existing. (39 apartments)

28

apartments chose Alison Schlesinger — the clear leader

Schlesinger leads clearly. Spielholz and Braverman are roughly tied for second. The bottom three — Henn, Gross, and Aronson — received markedly fewer votes.

Note: The candidates on our independent proxy will be drawn from the top vote-getters above who also appear on the co-op's official proxy form. This allows for flexibility in case any existing board members do not seek re-election or choose not to appear on our separate proxy.

Resulting Proposed Board Slate

Top 5 new candidates + top 4 existing board members, ranked by shareholder votes

New Nominees		
1	Jon Margareten	37 votes
2	Robert Brinberg	36 votes
3	Jonathan Berns	33 votes
4	Brett Silverstein	28 votes
5	Damian Britt	25 votes

Existing Board Members to Retain		
1	Alison Schlesinger	28 votes
2	Charles Spielholz, PhD	22 votes
3	Philip Braverman	21 votes
4	Mark Hasson	16 votes

Note: The candidates on our independent proxy will be drawn from the top vote-getters above who also appear on the co-op's official proxy form. This allows for flexibility in case any existing board members do not seek re-election or choose not to appear on our separate proxy.

Next Steps

1

Meet the Nominees and Learn About the Process

A Zoom call will be scheduled in the next couple of weeks. During the call, the five new nominees, as determined by the straw poll, will introduce themselves, and a lawyer (who is not a shareholder) will walk through the mechanics of the proxy process.

2

Reach Shareholders Not Yet Contacted

Not all shareholders are participating in the WhatsApp group. The US mail letter and direct outreach should inform them of the slate and give them the opportunity to submit a proxy.

3

Preparation of Independent Proxy

A proxy will be prepared for shareholders who wish to elect Board members through this independent process. It will include the five new nominees and the four existing Board members who received the most votes in the poll.⁽¹⁾

4

Collect Proxies — Electronic and Physical

Collection efforts will commence as soon as the initial annual meeting proxies are sent to shareholders

⁽¹⁾ The candidates on our independent proxy will be drawn from the top vote-getters above who also appear on the co-op's official proxy form

Thank You

To the shareholders who took the time to share their preferences.
