

A clear plan for a stronger 505.

SEP 23

Keep what works. Improve how decisions are made, communicated, and carried through - with clear ownership, consistent follow-up, and respect for every shareholder.

01 Communicate on a dependable cadence

Provide weekly updates on major capital projects and a concise monthly shareholder summary of non-confidential priorities, decisions, timelines, and next steps.

02 Put an owner behind every major project

Assign a named board liaison or project lead. Report scope, milestones, budget versus actual, schedule changes, risks, and the person accountable for follow-through.

03 Plan beyond next year's budget

Publish a multi-year capital plan and reserve roadmap. Explain how major work, assessments, borrowing, and significant asset decisions affect long-term value.

04 Set clear service standards

Adopt and publish response targets for the managing agent, including a two-business-day acknowledgment for routine inquiries and a clear escalation path.

05 Open the doors to participation

Hold quarterly shareholder forums with in-person and Zoom access, use regular surveys, support useful committees, and make the candidate process understandable and open.

06 Decide with facts and shareholder input

Evaluate rules, amenities, and shared-space proposals through cost, safety, operations, property value, and building-wide input - without predetermined outcomes.

74%

rated board communication 1 or 2 out of 5

89%

want greater visibility into board decisions

77%

support broader shareholder participation
